Derwent Title: **Earth leakage breaker having instantaneous trip device incorporated therein**

Original Title: ☒ KR2010733A: EARTH LEAKAGE BREAKER HAVING INSTANTANEOUS TRIP DEVICE INCORPORATED THEREIN

Assignee: HYUNG JE ELECTRIC CO LTD Non-standard company

Inventor: HONG S G;

Accession/Update: 2002-554960 / 200259

IPC Code: H01H 83/00 ;

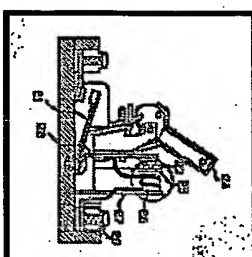

Derwent Classes: X13:

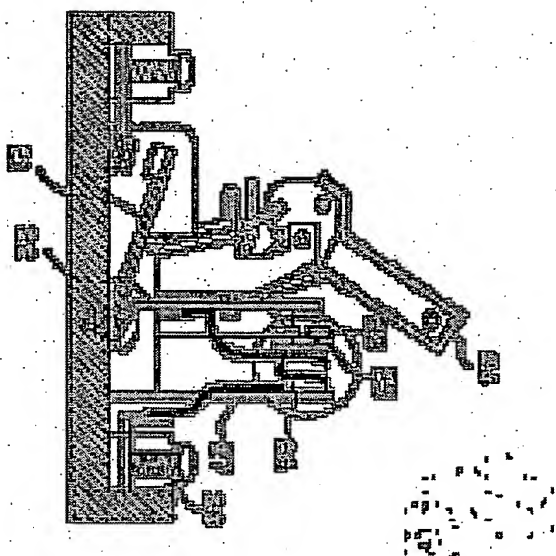

Manual Codes: X13-D05(Protective switches actuated by abnormal electrical conditions other than solely by excess current)

Derwent Abstract: (KR2010733A) **Novelty** - An earth leakage breaker is provided to break circuit in an accurate and rapid manner upon occurrence of over current, while preventing thermal degradation of coating of wire by reducing the time taken for breaking.

Detailed Description - A breaker comprises a trip unit for turning off an electric device upon occurrence of over load; a bi-metal(22) connected to the trip unit, and which is bent in accordance with the temperature change; a detection unit for detecting over current; a shunt unit(27) for connecting the bi-metal and a terminal holder; a bobbin(26) disposed adjacent to a motor unit(25) and connected to an operating unit(23), and which winds up the shunt; a terminal holder(28) connected to the shunt unit, and which fixes a terminal; a moving unit(21) connected to the bi-metal and arranged adjacent to the terminal holder, and a handle unit(24) protruded outward from the body of the breaker.
